

Learn how to improve quality care with essentiALZ[®] — Alzheimer's Association training and certification. This evidence-based training increases professional care providers' knowledge and confidence in caring for individuals living with dementia. The program, available in English and Spanish, is appropriate for all staff working in nursing homes, assisted living, life plan communities, home care, home health, hospice and adult day care.

essentiALZ — Alzheimer's Association training and certification provides practical and comprehensive training based on the nationally recognized, evidence-based Alzheimer's Association Dementia Care Practice Recommendations — the benchmark for quality person-centered care across the disease spectrum. essentiALZ training educates in five key areas, allowing care professionals to apply learnings to their daily care:

- » Basics of Alzheimer's and dementia
- » Person-centered care
- » Assessment and care planning
- » Activities of daily living
- » Communication changes and dementia-related behavior

The online and mobile-friendly training and certification offers:

- » Recognition of proficiency in key areas related to dementia care
- » Interactive modules and videos from professionals providing support to individuals living with Alzheimer's or other dementia
- » Convenient learning through a self-paced, three-hour online curriculum, available in English or Spanish
- » essentiALZ certification exam with purchase of essentiALZ training; certification is valid for two years from date of completion
